

Rube Goldberg Machine Competition

Rube Goldberg was a famous cartoonist and engineer. He is most well known for his cartoons which show complicated machines designed to do simple tasks. These machines are often made for entertainment, like in this video here:

<https://www.youtube.com/watch?v=nORRgU8sGdE>.

Your task for this Rube Goldberg machine competition is to create and take a video of a working Rube Goldberg machine that can pour a glass of water.

Rules & Guidelines:

1. Use mostly items already found in your home.
2. Take one continuous video with minimal editing while the machine is running.
3. The video can be no longer than 2 minutes, but there is no minimum time limit.

The videos and photos of your Rube Goldberg machine should be sent to asme@utk.edu. All machines will be judged on if they can work and how creative they are. Have fun!
