${ }^{\text {Progression }}$
The department requires at least a $C$ in every computer engineering, computer science, electrical engineering, and mathematics course used tor the undergraduate degrees. ECE 201 requires a or better in EF $1521 / 58$ and Math 14214148 .
Progression of departmental undergraduate students to the upperdivision programs of the department is competitive and is based on the space available in the department: Factors considered in the decision include
overal grade point average, grades earned in courses required in the lowere division curricula of the department and College of Engineering, and seriousness of purpose and interest in departmental programs as -
Students also have opportunities for an Honors Concentration and/or a five year BS/MS program. See the Undergraduate Catalog for details and requirements.
Volunteer Core courses highlighted in light orange.
