*Technical Electives are selected from upper division mathematics, chemistry. physics and engineering courses and must be pre-approved by the department. Courses in Nuclear Engineering other than 500,502 or 598
may also be used as technical electives.
Full Status Progression
A lower-division student may apply for progression to upper division after completing CHEM $122 / 123$ or $128^{*}$, CHEM 1321133 or $138^{*}$, MATH $132141 / 147^{*}$, MATH $142 / 148^{*}$, MATH $231 / 237$, EF $151 / 157^{*}$, EF $152158^{*}$, and PHYS $233^{* *}$, with a grade of C or better in each, and an overall GPA of at least 2.5 .

## Provisional Status Progressio

Students who have completed CHEM $122 / 123$ or $128^{*}$, CHEM $132 / 133$ or $138^{*}$, MATH $1321141 / 147^{*}$, MATH $142 / 148^{*}$, MATH $231 / 237$, EF $151 / 157^{*}$, EF $152 / 158^{*}$, and PHYS $233^{*}$ with a grade of Cor beter and have an overall GPA between 2.0 and 2.5 may apply for provisional status. The granting of provisional status is based on the availability of space in
 Students who have not progressed to upper-division will be dropped from departmental courses.

## Nuclear Graduation Requirements

Students are required to maintain a cumulative grade point average of at least 2.0 in all nuclear engineering courses taken at the Unversity of Tennessee, Knoxville used to saitsfy the graduation requirement. No more than four (4) credit hours of required nuclear engineering courses in which a C - or lower is the highest grade earned may be counted toward graduation. This is in addition to the university's graduation requirements. Students are strongly recommended to meet with their faculy advisor every semester.

Students also have opportunities for an Honors Concentration and/or a five year BS/MS program. See the Undergraduate Catalog for details and requirements.
Volunteer Core courses highlighted in light orange.
