

Cup Stacking

Introduction/Goals

This encourages teamwork, communication, and problem solving.

Instructions

- 1) Create a team of 4
- 2) Each team member gets a piece of string, and each string holds onto the rubber band
- 3) With the cups not stacked and faced down, have the team members stack the cups in order of the challenges. Emphasize that only the rubber bands can touch the cups, and communication is needed to achieve this.
